THIRD REPORT OF BDO CANADA LIMITED, IN ITS CAPACITY

AS COURT APPOINTED RECEIVER

August 30, 2017

INTRODUCTION AND PURPOSE OF THIS REPORT

Introduction

1. By Order of the Honourable Mr. Justice Wilton-Siegel of the Ontario Superior Court of Justice (the "**Court**") dated February 24, 2017 (the "**Receivership Order**"), BDO Canada Limited ("**BDO**") was appointed as the Court-appointed receiver (in such capacity, the "**Receiver**") of all of the assets, undertakings and properties of Terrasan 327 Royal York Rd. Limited ("**Terrasan**" or the "**Company**"), pursuant to the application made by Centurion Mortgage Capital Corporation.
2. The Company's principal asset is a partially constructed residential condominium development located at 327 Royal York Rd., Toronto, Ontario known as the "On the Go Mimico". The municipal address for the Project is 327 Royal York Rd., Toronto, Ontario (the "**Property**").
3. On April 3, 2017, this Court granted an Order (the "**Sale Process Order**") which, among other things: (i) approved the First Report of the Receiver dated March 27, 2017, and the actions of the Receiver set out therein; and (ii) approved the marketing and sale process for the Property as set out in the First Report (the "**Sale Process**").
4. On August 25, 2017, this Court granted an Approval and Vesting Order (the "**Approval and Vesting Order**") which approved, among other things, the asset purchase agreement dated July 28, 2017 (the "**2402871 APA**") between the Receiver and 2402871 Ontario Inc. (the "**Purchaser**") and the transaction as set out therein. The closing of the sale pursuant to the 2402871 APA was to occur within 7 days of the Court granting the Approval and Vesting Order (the "**Closing Date**").
5. Aluma Systems Inc. ("**Aluma**") and Resform Construction Limited ("**Resform**") were in attendance at the sale approval motion represented by their respective counsel, Ms. Willson and Mr. DaRe. Aluma is a sub-trade of Resform. Each party raised concerns regarding the removal of their client's equipment from the Property, specifically whether reasonable access would be afforded to Resform following the transfer of the Property. The equipment consists of Aluma's scaffolding and Resform's tower crane (together, the "**Equipment**"), which do not form part of the assets being conveyed to the Purchaser pursuant to the 2402871 APA.
6. Certain scaffolding is currently supporting concrete structures at the Property, the removal of which must be engineered and "shored" to maintain the integrity of the structures and the safety of workers that will be onsite and engaged in the removal process. The Receiver also understands that demobilizing the crane requires certain stepped procedures to be followed and requires the use of a secondary mobile crane and will require the closure of a roadway that provides access to the Mimico Go Train Station.

7. Justice Myers issued an endorsement scheduling a motion returnable August 31, 2017 to address Aluma and Resform's concerns regarding the return of the Equipment should Aluma, Resform and the Receiver not be able to develop a viable demobilization plan. Attached hereto as **Appendix A** is a copy of the aforementioned endorsement of Justice Myers.

2402871 APA UPDATE

8. In accordance with the terms of the 2402871 APA, the Receiver and the Purchaser have agreed in writing to extend the Closing Date to September 8, 2017. The Purchaser has indicated to the Receiver that it is not prepared to close the sale pursuant to the 2402871 APA until such time as the Equipment removal issue is resolved.

RESFORM CLAIM

9. On or about January 31, 2017, Resform filed a lien claim for amounts owing to it pursuant to the Resform Contract (as defined herein). Attached hereto as **Appendix B** is a true copy of the lien materials provided to the Receiver from Resform (the "**Lien Materials**"). The cost of demobilization has been claimed by Resform in the Lien Materials.
10. A copy of the Resform contract is attached hereto as **Appendix C** (the "**Resform Contract**"). The Resform Contract provides that Resform is responsible for the removal of the Equipment.

SUMMARY OF RECEIVER'S DEALING WITH RESFORM

11. Following the appointment of the Receiver pursuant to the Receivership Order, on or about March 9, 2017, the Receiver was contacted by Mr. DaRe to inquire about rental payments for the Equipment. At that time the Receiver advised Mr. DaRe that it was not in a position to make rental payments.
12. The Receiver continued to have various communications with both Mr. DaRe and representatives of Resform after March 24, 2017 regarding the removal of the Equipment. During these communications, the Receiver advised that it was in the process of selling the Property and provided Mr. DaRe with information regarding the Sales Process. Attached hereto as **Appendix D** is a copy of the email correspondence dated April 13, 2017 wherein the Receiver provides Mr. DaRe a weblink to the Receiver's Sale Process website.
13. The Receiver understands that Resform was requesting information related to the Sales Process as it had an interest in communicating with bidders in the Sale Process in an effort to secure new agreements for the continued use of the Equipment at the construction site.

14. At no time has the Receiver prohibited Resform or Aluma from removing the Equipment from the Property. However, given the nature of the Equipment, the Receiver has always maintained that a detailed demobilization plan needs to be provided in advance of the removal to ensure that the demobilization is conducted in a reasonable and safe manner having consideration for all relevant safety legislation.
15. On June 8, 2017, the Receiver received a letter from Resform addressed to Empire Communities requesting access to the Property to remove the Equipment. On June 8, 2017, the Receiver contacted Mr. DaRe and requested details of Resform's intention regarding removal of the Equipment. Mr. DaRe was unaware that Resform had demanded access to the Property to remove its equipment and asked the Receiver to provide him with his client's correspondence and indicated that he would contact his client for further instruction. Attached hereto as **Appendix E** is a copy of the June 8, 2017 correspondence.
16. On June 9, 2017, the Receiver received a reply from Mr. DaRe. Attached hereto as **Appendix F** is a copy of the June 9, 2017 correspondence. Resform communicates to the Receiver that its negotiations for new agreements with bidding parties were not as successful as Resform had anticipated and Resform indicates it wants to take steps to remove the Equipment.
17. On June 21, 2017, representatives of Resform / Aluma entered the Property without the Receiver's permission. The Receiver contacted Mr. DaRe by email and advised that, before anything is removed from the site, the Receiver needed to understand what was being removed and the process of removal in order to be satisfied that the removal is safe and will not impact the integrity of the construction site. The Receiver was also concerned about the safety of those representatives unlawfully entering the construction site without supervision.
18. On June 28, 2017, the Receiver met with Mr. Brocca of Resform at the Property to discuss the removal of the Equipment. In attendance at that meeting were, among others, a representative of Quinn Dressel Associates (the engineer of record for the development). At that meeting Mr. Brocca agreed to provide the Receiver with a complete plan for the removal of the Equipment including obtaining all necessary permits required to carry out a demobilization plan. The Receiver understands that any demobilization plan requires approval by Quinn Dressel Associates as the engineer of record for the development. No such demobilization plan was provided to the Receiver or Quinn Dressel Associates.
19. On July 7, 2017, the Receiver delivered correspondence to Mr. Brocca to obtain a status update regarding the demobilization plan. Attached as **Appendix G** is a copy of the July 7, 2017 correspondence. The Receiver received no response to its email to Mr. Brocca.

20. On July 11, 2017, the Receiver subsequently contacted Mr. Brocca by telephone. During the telephone conversation Mr. Brocca indicated to the Receiver that Resform had not yet put its mind to formulating a demobilization plan and that to do so would require taking a project manager off of an ongoing construction project to dedicate time to preparing a demobilization plan. The Receiver also asked if a list of certain tools and small equipment not requiring the use of the tower crane that could be easily removed from the site had been assembled. Mr. Brocca indicated that such a list was being assembled but required input from various individuals and had also not yet been completed.

DEMOBILIZATION

21. On August 25, 2017, following the motion for the Approval and Vesting Order, the Receiver, its counsel, Ms. Willson and Mr. DaRe met to discuss the removal of the Equipment from the Property. At that meeting, the Receiver was asked to determine if the Purchaser would have an interest in the Equipment and the parties agreed that Mr. DaRe would take the necessary steps to have Resform develop a demobilization plan. Since that meeting:
- (a) on August 27, 2017, Receiver's counsel delivered correspondence to Mr. DaRe indicating that the Purchaser had no interest in the crane;
 - (b) On August 28, 2017, Mr. DaRe sent the Receiver's counsel an email estimating the number of days required to demobilize the Equipment, however a detailed demobilization plan was not included. Attached as **Appendix H** is a copy of the August 28, 2017 correspondence;
 - (c) On August 28 and August 29, 2017, Receiver's counsel followed up with Mr. DaRe regarding the progress in obtaining the required permit(s) associated with demobilization. Attached as **Appendix I** is a copy of the August 28, 2017 and August 29, 2017 correspondence;
 - (d) On August 30, 2017, Mr. DaRe provided an update on the development of a demobilization plan. At this point, the Receiver understands that Resform is meeting with the Purchaser to discuss the possibility of the Purchaser entering into an agreement with Resform. Attached hereto as **Appendix J** is a copy of the August 30, 2017 correspondence.
22. To date, the Receiver has not received a viable demobilization plan from Resform. The Receiver is concerned that the delays to date in the development a viable demobilization plan may jeopardize the closing of the sale pursuant to the 2402871 APA.

23. Based on the foregoing, the Receiver is seeking an Order requiring Resform to deliver a demobilization plan on or before September 6, 2017, that will outline the timing associated with the necessary permit process, confirm the engagement of the contractors required to assist in the demobilization process, and provide assurances regarding the safety concerns of the Receiver and the ultimate date of completion.

All of which is respectfully submitted this 30th day of August, 2017.

 - .2 If the change results in a net decrease in the *Trade Contractor's* cost, the *Contract Price* shall be decreased by the amount of the net decrease in the *Trade Contractor's* cost, without adjustment for the *Trade Contractor's* percentage fee.
 - .3 The *Trade Contractor's* fee shall be as specified in the *Contract Documents* or as otherwise agreed by the parties.
- 6.3.7 The cost of performing the work attributable to the *Change Directive* shall be limited to the actual cost of the following:

GC 6.4 CONCEALED OR UNKNOWN CONDITIONS

6.4.1 If the *Owner*, the *Trade Contractor* or the *Construction Manager* discover conditions at the *Place of the Project* which are:

- .1 subsurface or otherwise concealed physical conditions which existed before the commencement of the *Work* which differ materially from those indicated in the *Contract Documents*; or

then the observing party shall give *Notice in Writing* to the *Construction Manager* of such conditions before they are disturbed and in no event later than 5 *Working Days* after first observance of the conditions. The *Construction Manager* will promptly inform the *Owner*, the *Trade Contractor* and the *Consultant* in writing.

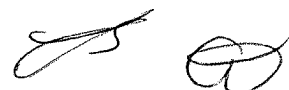

- 6.4.2 The *Construction Manager* will promptly investigate such conditions and make a finding. If the finding is that the conditions differ materially and this would cause an increase or decrease in the *Trade Contractor's* cost or time to perform the *Work*, the *Construction Manager*, with the *Owner's* approval, will issue appropriate instructions for a change in the *Work* as provided in GC 6.2 – CHANGE ORDER or GC 6.3 – CHANGE DIRECTIVE.
- 6.4.3 If the *Construction Manager* finds that the conditions at the *Place of the Project* are not materially different or that no change in the *Contract Price* or the *Contract Time* is justified, the *Construction Manager* will promptly inform the *Owner* and the *Trade Contractor* in writing.
- 6.4.4 If such concealed or unknown conditions relate to toxic and hazardous substances and materials, artifacts and fossils, or mould, the parties will be governed by the provisions of GC 9.2 – TOXIC AND HAZARDOUS SUBSTANCES, GC 9.3 – ARTIFACTS AND FOSSILS and GC 9.5 – MOULD.

- 6.5.1 If the *Trade Contractor* is delayed in the performance of the *Work* by an action or omission of the *Owner*, the *Construction Manager*, the *Consultant*, or anyone employed or engaged by them directly or indirectly, contrary to the provisions of the *Contract Documents*, then the *Contract Time* shall be extended for such reasonable time as the *Construction Manager* may recommend in consultation with the *Trade Contractor*. The *Trade Contractor* shall be reimbursed by the *Owner* for reasonable costs incurred by the *Trade Contractor* as the result of such delay.
- 6.5.2 If the *Trade Contractor* is delayed in the performance of the *Work* by a stop work order issued by a court or other public authority and providing that such order was not issued as the result of an act or fault of the *Trade Contractor* or any person employed or engaged by the *Trade Contractor* directly or indirectly, then the *Contract Time* shall be extended for such reasonable time as the *Construction Manager* may recommend in consultation with the *Trade Contractor*. The *Trade Contractor* shall be reimbursed by the *Owner* for reasonable costs incurred by the *Trade Contractor* as the result of such delay.
- 6.5.3 If the *Trade Contractor* is delayed in the performance of the *Work* by:

 - .2 fire, unusual delay by common carriers or unavoidable casualties,
 - .3 abnormally adverse weather conditions, or

- then the *Contract Time* shall be extended for such reasonable time as the *Construction Manager* may recommend in consultation with the *Trade Contractor*. The extension of time shall not be less than the time lost as the result of the event causing the delay, unless the *Trade Contractor* agrees to a shorter extension. The *Trade Contractor* shall not be entitled to payment for costs incurred by such delays unless such delays result from actions by the *Owner*, *Consultant*, *Construction Manager*, or anyone employed or engaged by them directly or indirectly.
- 6.5.4 No extension shall be made for delay unless *Notice in Writing* of the cause of delay is given to the *Construction Manager* not later than 10 *Working Days* after the commencement of delay. In the case of a continuing cause of delay only one *Notice in Writing* shall be necessary.
- 6.5.5 If no schedule is made under paragraph 2.2.1.4 of GC 2.2 – ROLE OF THE CONSTRUCTION MANAGER AND THE CONSULTANT, then no request for extension shall be made because of failure of the *Construction Manager* to furnish instructions until 10 *Working Days* after demand for such instructions has been made.

GC 6.6 CLAIMS FOR A CHANGE IN CONTRACT PRICE

- 6.6.1 If the *Trade Contractor* intends to make a claim for an increase to the *Contract Price*, or if the *Owner* intends to make a claim against the *Trade Contractor* for a credit to the *Contract Price*, the party that intends to make the claim shall give timely *Notice in Writing* of intent to claim to the other party and to the *Construction Manager*.
- 6.6.2 Upon commencement of the event or series of events giving rise to a claim, the party intending to make the claim shall:
- .1 take all reasonable measures to mitigate any loss or expense which may be incurred as a result of such event or series of events, and
 - .2 keep such records as may be necessary to support the claim.

- 6.6.3 The party making the claim shall submit within a reasonable time to the *Construction Manager* a detailed account of the amount claimed and the grounds upon which the claim is based, and the *Construction Manager* shall make a finding upon such claim.
- 6.6.4 Where the event or series of events giving rise to the claim has a continuing effect, the detailed account submitted under paragraph 6.6.3 shall be considered to be an interim account and the party making the claim shall, at such intervals as the *Construction Manager* may reasonably require, submit further interim accounts giving the accumulated amount of the claim and any further grounds upon which it is based. The party making the claim shall submit a final account after the end of the effects resulting from the event or series of events.
- 6.6.5 The *Construction Manager's* finding with respect to a claim made by either party, will be given by *Notice in Writing* to both parties within 30 *Working Days* after receipt of the claim by the *Construction Manager*, or within such other time period as may be agreed by the parties.
- 6.6.6 If such finding is not acceptable to either party, the claim shall be settled in accordance with Part 8 of the General Conditions – DISPUTE RESOLUTION.+

GC 7.1 OWNER'S RIGHT TO PERFORM THE WORK, TERMINATE THE TRADE CONTRACTOR'S RIGHT TO CONTINUE WITH THE WORK OR TERMINATE THE CONTRACT

- 7.1.1 If the *Trade Contractor* is adjudged bankrupt, or makes a general assignment for the benefit of creditors because of the *Trade Contractor's* insolvency, or if a receiver is appointed because of the *Trade Contractor's* insolvency, the *Owner* may, without prejudice to any other right or remedy the *Owner* may have, terminate the *Trade Contractor's* right to continue with the *Work*, by giving the *Trade Contractor* or receiver or trustee in bankruptcy *Notice in Writing* to that effect.
- 7.1.2 If the *Trade Contractor* neglects to prosecute the *Work* properly or otherwise fails to comply with the requirements of the *Contract* to a substantial degree and if the *Construction Manager* has given a written statement to the *Owner* and *Trade Contractor* that sufficient cause exists to justify such action, the *Owner* may, without prejudice to any other right or remedy the *Owner* may have, give the *Trade Contractor Notice in Writing* with a copy to the *Construction Manager* that the *Trade Contractor* is in default of the *Trade Contractor's* contractual obligations and instruct the *Trade Contractor* to correct the default in the 5 *Working Days* immediately following the receipt of such *Notice in Writing*.
- 7.1.3 If the default cannot be corrected in the 5 *Working Days* specified or in such other time period as may be subsequently agreed in writing by the parties, the *Trade Contractor* shall be in compliance with the *Owner's* instructions if the *Trade Contractor*:

 - .3 corrects the default in accordance with the *Contract* terms and with such schedule.
- 7.1.4 If the *Trade Contractor* fails to correct the default in the time specified or in such other time period as may be subsequently agreed in writing by the parties, without prejudice to any other right or remedy the *Owner* may have, the *Owner* may:
- .1 correct such default and deduct the cost thereof from any payment then or thereafter due to the *Trade Contractor* provided the *Payment Certifier* has certified such cost to the *Owner* and the *Trade Contractor*, or
 - .2 terminate the *Trade Contractor's* right to continue with the *Work* in whole or in part or terminate the *Contract*.
- 7.1.5 If the *Owner* terminates the *Trade Contractor's* right to continue with the *Work* as provided in paragraphs 7.1.1 and 7.1.4, the *Owner* shall be entitled to:

.4 on expiry of the warranty period, charge the *Trade Contractor* the amount by which the cost of corrections to the *Trade Contractor's* work under GC 12.3 – WARRANTY exceeds the allowance provided for such corrections, or if the cost of such corrections is less than the allowance, pay the *Trade Contractor* the difference.

7.1.6 The *Trade Contractor's* obligation under the *Contract* as to quality, correction and warranty of the work performed by the *Trade Contractor* up to the time of termination shall continue in force after such termination of the *Contract*.

7.2.2 If the *Work* should be suspended or otherwise delayed for a period of 20 *Working Days* or more under an order of a court or other public authority and providing that such order was not issued as the result of an act or fault of the *Trade Contractor* or of anyone directly or indirectly employed or engaged by the *Trade Contractor*, the *Trade Contractor* may, without prejudice to any other right or remedy the *Trade Contractor* may have, terminate the *Contract* by giving the *Owner* *Notice in Writing* to that effect.

7.2.3 The *Trade Contractor* may give *Notice in Writing* to the *Owner*, with a copy to the *Construction Manager* and the *Consultant*, that the *Owner* is in default of the *Owner's* contractual obligations if:

- .1 the *Owner* fails to furnish, when so requested by the *Trade Contractor*, reasonable evidence that financial arrangements have been made to fulfill the *Owner's* obligations under the *Contract*, or
- .2 the *Payment Certifier* fails to issue a certificate as provided in Part 5 of the General Conditions – PAYMENT, or
- .3 the *Owner* fails to pay the *Trade Contractor* when due the amounts certified by the *Payment Certifier* or awarded by arbitration or court, or

Gary,

Further to our discussion yesterday I have had the opportunity of clarifying matters with my client.

As I had written to you sometime ago, my client continues to incur significant expenses in relation to the rental equipment currently on site. As there does not appear to be any prospects that an agreement with a new buyer will be completed before early fall, nor have we received any assurances that we will be offered a contract to continue to complete, my client is simply not prepared to continue to incur the expenses in the circumstances.

Should you wish to discuss this matter with me you may contact me at anytime, however I do agree with my clients position and in the absence of the trustee agreeing to pay compensation, this seems the only prudent course.

Yours Truly,

Sent: 7-Jul-17 1:15 PM
To: 'sandro.brocca@resgroup.ca'
Subject: Terrasan 327 Royal York Rd. - Resform/Aluma Equipment

Sandro, here is an update since our meeting on June 28, 2017 at the Terrasan construction site with Resform and Aluma. I have instructed my counsel to prepare an NDA for you to sign, the NDA should be ready and circulated to Resform early next week. Also, we are currently reaching out to the Phase 2 bidders to determine where they are in their due diligence process and to discuss their considerations with respect to the crane and the scaffolding. As discussed, some of the Phase 2 bidders which you may not have spoken with yet, may be interested in keeping the crane and scaffolding on site. Once you sign an NDA we will start asking the Phase 2 bidders to contact you directly to discuss the crane and scaffolding situation.

You informed me that Resform needed access to the construction site to do an electrical safety test on the crane and you wanted to engage a safety consultant to tour the site to make sure the site was safe for your workers to demobilize the crane and Aluma to remove its scaffolding, if either are determined to be necessary.

Resform was going to provide the Receiver with a complete plan on the crane and scaffolding removal process for BDO's engineer to review to ensure that the safety and integrity of the construction at the site is maintained. Additionally, you were going to also obtain all of the city permits necessary to operate and demobilize the crane, should it be determined to be necessary in the circumstances. Lastly, you had mentioned that you were going to provide the Receiver with a list of the tools and small equipment that you needed to remove from the site that didn't require the use of the crane.

Can you please advise on the status of your progress with regard to the above items.

Thanks.

Subject: Resform v. Terrasan - Receivership

Robert,

I have heard back from my client and there are a number of matters which I wish to share with you in regards to the demobilization process.

The first issue arises by virtue of the necessity of closing Kenny Avenue which leads to the Mimico station. Accordingly, an application for permits will require the consent of Metrolinx and a co-ordinated submission. My client has reached out to Metrolinx but in their experience it may take a few days for their position to be known.

In regards to the demobilization, that will require a crew of ten (10) labourers to stack the framing and scaffolding over a period of four (4) to five (5) days. The Tower Crane is then used to load the equipment bundles onto flat bed trailers for transportation. A mobile crane service has been contacted with regards to dismantling and trucking of the crane itself. This can be accomplished in two (2) to three (3) days. Accordingly the process of demobilization on site should be accomplished within eight (8) working days commencing at the time that all permits are in place.

I have spoken with Bruce Milburn at Baker Schneider Ruggiero. His inclination was that his clients would not insist on vacant possession including our equipment at closing. Accordingly, it should be no problem to have a three way agreement with respect to removal after final closing and I would ask that you contact him to discuss.

I noticed in correspondence that there may have been an engineering report. I would ask that you provide any reports that are not privileged, including any inventory lists compiled by the Receiver to me as soon as possible.

Finally, I would ask that you speak to the Receiver in regards to our claim for priority payment recognizing this will be a matter that will be discussed at the future distribution hearing, it would be appropriate at this time, for the parties to do any final determination as to whether or not the Receiver considers the equipment to have been provided any necessary or essential service during the Receivership sales process.

Subject: RE: Resform v. Terrasan - Receivership

Robert,

To provide you with an update, I understand from my client that they have scheduled a meeting with the purchasers tomorrow at 9:00 a.m. The purpose of the meeting is to discuss the possibility that my client may remain on site as contractor or alternatively, the purchaser may wish to retain some of the equipment, especially the crane, for completion. Perhaps this is optimistic however, if Resform is to be retained, that would significantly impact on the necessity of demobilizing at this time.

In regards to the demobilization process, I am advised that Mr. Brocca did attend on the site for a meeting on June 28, 2017, with the Receiver, Gary Cerrato, and a structural engineer, amongst others. Apparently, there are concrete structures currently being supported by the scaffolding. Discussions took place to the extent that the structural engineer would need to prepare a temporary shoring design and instructions for the safe removal of the scaffolding and continued support of the structure. At that time, Resform required confirmation from the Receiver in regards to payment for the work, including the engineering, and was not provided with the instructions to proceed from the Receiver nor a commitment to pay for the services. Accordingly, nothing was done to either complete the drawings or the work. I understand that Mr. Cerrato may have made detailed minutes of that meeting and accordingly I would ask that you obtain those from him and provide me with a copy.

In the circumstances, and pending the outcome of the meeting tomorrow morning, I am uncertain as to what might be accomplished by re-attending before Justice Myers. I would appreciate your thoughts. Perhaps you may wish to obtain the input of Mr. Milburn or the receiver so that we might coordinate the attendance or simply move it to a more appropriate date should directions from the Court still be required.

Thank you.
